

Ah-Yeong Jeong

✉ wjddkdud6469@korea.ac.kr 🌐 ayjxng.github.io in ah-yeong-jeong 🎓 Google Scholar

EDUCATION

-
- Korea University**, M.S. in Artificial Intelligence Mar 2025 – Current
- Advised by Professor [Heung-Il Suk](#) at Machine Intelligence Lab. ([MILab](#))
- Korea University**, B.S. in Biomedical Engineering Mar 2020 – Feb 2025
- **Coursework:** Medical Image Processing, Statistics, Mathematics, and Programming

RESEARCH INTERESTS

Neuroimaging Analysis, Brain Signal Representation Learning, State Space Models, Brain Dynamics, Foundation Models, Brain Disorder Diagnosis

PUBLICATIONS

-
- [1] **Complex wavelet-based Transformer for neurodevelopmental disorder diagnosis via direct modeling of real and imaginary components** [Paper]
[Ah-Yeong Jeong*](#), [Da-Woon Heo*](#), [Heung-Il Suk](#)
Medical Image Analysis, vol. 109, 2026
- [2] **BrainWaveNet: Wavelet-based Transformer for Autism Spectrum Disorder Diagnosis** [Paper]
[Ah-Yeong Jeong*](#), [Da-Woon Heo*](#), [Eunsong Kang](#), [Heung-Il Suk](#)
Medical Image Computing and Computer Assisted Intervention (MICCAI), 2024 (**Oral Presentation**)
- [3] **DyBraSS: Dynamic Brain State Modeling with State-Space Model**
[Ah-Yeong Jeong](#), [Seungwoo Jeong](#), [Da-Woon Heo](#), [Heung-Il Suk](#)
Under review, 2026
- (* denotes equal contribution)

EXPERIENCES

-
- Machine Intelligence Lab, [MILab](#)** | Korea University Nov 2023 – Feb 2025
- Undergraduate Research Intern
 - Advised by Professor [Heung-Il Suk](#), Korea University

ACADEMIC SERVICE

-
- Reviewer**, Medical Image Analysis 2025

VOLUNTEERING

-
- Korea University Brain Science Academic Society, NewLearn** Mar 2023 – Dec 2023
- Vice president
 - Studying neuroscience, cognitive science, and mathematics
 - Participated in KSBNS (Korean Society for Brain and Neural Sciences) 2022 offline
 - Reviewing neuroscience papers
- Computational Neuroscience academic club, Neuromatch** Sep 2022 – Dec 2023
- Team Leader
 - Directing an academic club aimed at studying computational neuroscience
 - Studying theoretical neuroscience and machine learning
 - Participated in NMA (Neuromatch Academy) 2022 online

- Member
- Holding symposiums and interacting with each university's brain science society

SKILLS

Language

- Korean (Native)
- English (12+ years of education)

Programming

- Python (PyTorch, TensorFlow, NumPy, Pandas, Scikit-learn, Matplotlib), Bash/Shell.
